UNBOXING The Noble & Noble speakers

This manual regards the unboxing only; the User Manual is inside this box.

You will not need any special tools; a pair of scissors is all you will need.

Required: 1 or 2 able bodied persons + a pair of scissors.

Step 1:
Use a pair of scissors to cut and remove the black wrapping plastic.

Step 1A:
Use a pair of scissors to cut and remove the tie straps.

Step 2:
A. The speakers are still inside the (3-part) protective cardboard box enclosure. Please make sure that the speakers are standing  UP  as they would be in your home, office or dedicated media room.

B. Now, remove the cardboard top, including the necessary accessories, and then take out the body and leave the speaker inside the bottom cardboard box part.

C. Remove the plastic bag.

D. Keep the inner protective foam in place on the speaker.

NOBLE & NOBLE

Step 3:

Take out the necessary accessories from the white carton box glued to the top of the cardboard body and leave the white carton box glued to the top of the cardboard body.

Step 4:

Remove the protective foam from the speaker.

Step 5:

A. By using the supplied white gloves you can now take out the speaker from the bottom cardboard box part.

B. Remove the protective foam from the bottom of the speaker.

C. Place the speakers approximately where you would like to place them, using the supplied white gloves.

Step 6:

Please keep all of the packaging and this unboxing paper in a dry place so it is stored for (maybe) later use, e.g. in case you need to ship the speakers for repair reasons. This packaging is especially designed and made for shipping the Noble & Noble speakers in a safe way.

Step 7:

Please start reading the User Manual fully and carefully before attempting and/or connecting anything. Why? This way you will be rewarded with the unique Noble & Noble sound quality by setting up the speakers in the right chronological order.
